

Lord Stjepan

The proclamation by Lord Constans Nemeck is of my attention, but in all matters of internal and external war, the Bank of Sel-Kai must take an immediate stance of non-interference, lest the Bank become wrapped up in political affairs, which would severely impact our business not just in Faestra, nor Emer, but in many continents beyond.

And upon a personal request, I must decline as well, as matters of war or negotiation are less of my matter than books and numbers. The Sel-Kai bank takes no stance on other cities' incursions or terrorism in any lands, and shall not enter into any party to. The Bank of Sel-Kai is well capable of recovering any losses and will always maintain contract with the current holder of the legal bill.

At this point in time, the Sel-Kai bank has not been notified of any change of leadership within Pellern and will continue to work on all matters with its employer.

Eldèrik Boussaerd
Bank of Sel-Kai Administrator
