

To all Lords, nobles and citizens of Pellern and Alkartek

Let it be known that on this day, the 70th of Autumn in the year 6053, Lord Constans Nemeck, true ruler of cities Pellern and Alkartek and his wife the Lady Wintessa, daughter of Lord Dennyys of Vornay were both assassinated at the behest of the reticent brother, Lord Stjepan.

As Commander in Chief of the armies of Pellern and Alkartek I call for the instant arrest of Lord Stjepan and his conspirators. So a warrant is hereby issued and a reward of one thousand gold for the successful capture of Lord Stjepan is offered.

Without a ruler, it is the domain of the military to take control of both lands and proclaim martial law upon the two city states. A curfew of the evening quintar to predawn is hereby established.

The armies of Alkartek call for men and women to support the arrest of this despot and tyrant, and for those of Pellern to turn their backs upon this twisted man who claims himself as Lord of Pellern. We will not cease until he has been brought to justice.

Lord Daubon
