

Lord Stjepan

As you are aware the City State of Alkartek is no more and as such many of its Lords are dispossessed without Lord to govern. I write to inform you that the Eastern Lords of Alkartek; Lord Valgot, Lord Lyaum, Lord Torchel, Lord Demenal, Lord Bosielle, Lord Bevemiir, Lord Assin, Lord Desdigne, Lord Tudinæ, and Lord Jarnell have agreed with formal allegiances signed to support and join under the rule of Bokpentok.

With such an alliance trade is of priority to our declining cities and towns, and as such Pellern who has come to prominence affects our well-being. I have withdrawn from the surreptitious gatherings in Drian as our state is now in direct competition with your own growing lands, Lord Stjepan.

As such we will impose all we can if threatened and wield competent forces to deal with threats when they impact our livelihoods. I have informed all Lords of Miir and Bornia upon this matter, one that is not up for discussion.
