

Lord Stjepan

Apologies for the lack of communique my Lord
but you will be pleased to know the repair is going
well despite this cold winter

I foresee the walls will be strong by the summer
but with your generous grant to strengthen the
castles I will call on more workers from Relian so
that the castle can stand proud as soon as possible

I have had contact from riders under Duse
Invarath who has informed me of the situation with
Bokpentok and you can be sure my men are on
alert

I have sent riders to Lord Vona to advise him too
of the situation

Faithfully Yours
Lord Dasek
