

My Lord, Stjepan Hemeck

Lord Sigmoris I believe can be trusted. He cares only for what is left of his lands and people my lord, as do we all. He did not wage war on Dasek, though had the opportunity but chose against it. We are five hundred strong in knights and we will call upon the mercenaries, but I do not believe more pay will get them here faster.

We have not yet heard back from the Grey Grove.

Faithfully
