

Lord Shepan

Tovor has repeatedly faced the onslaught of the drake during this cold winter feasting upon our livestock and upon two families

I thank you for the concern to our tribulations and your offer of help yet I fear the drake is too strong a beast for weapons to cause harm

The eastern alliance from what I have learned which is little is that it is based on fear with weekly tax collections by Amethyst League members who have somehow swayed a once good friend and ally Count Hirotha

Lord Lystor of Tovor
